

Mike Macrie

SVP and Chief Information Officer

Mike joined Land O'Lakes, Inc. in 2010 and became senior vice president and chief information officer in June 2013. During his tenure, Mike has led extensive efforts to embrace big data, mobile, and cloud computing across the enterprise and invest in developing unique and market-leading solutions in the areas of precision agriculture, ag technology and industry leading analytics.

Mike has deep relationships across a number of companies in the technology industry and participates in Customer Advisory Boards with Microsoft, Oracle and Salesforce. He also is an advisor in various capacities to Blumberg Capital, Landmark Ventures, Lightspeed Venture Partners, SVG Partners, and accelerators such as Thrive.

Mike speaks frequently on how to operate IT as a business and how digital is changing the role of the CIOs within enterprises. He is also a leading influence in the emerging AgTech industry.

Before joining Land O'Lakes, Mike held a breadth of roles at Ingersoll Rand, AlliedSignal and was involved in several start-ups including G5 Technologies and Multi-Media Solutions. Mike earned his MBA from Duke University and a bachelor's degree from Cornell University.
